SUMMARY

Results-driven Senior Quality Analyst with **3.5 years of experience** in end-to-end software testing, specializing in **Manual, API, and Automation** workflows. Expert in building scalable test frameworks using **Java, Selenium, and TestNG**. Proven track record of collaborating with cross-functional DevOps and Product teams to ensure zero-defect delivery of high-traffic web and mobile applications under aggressive timelines.

TECHNICAL SKILLS

Testing Expertise: Web UI Automation, Manual Testing, Mobile App Testing (Appium), Database Validation (MySQL)

Automation Frameworks: Selenium WebDriver, TestNG, Maven, Rest Assured, Hybrid Frameworks

API & DevOps Tools: Postman, Swagger, RESTful APIs, Jira, GitHub, Jenkins CI/CD, Rundeck, kubectl

Methodologies: SDLC, STLC, Agile/Scrum, Regression Testing, Risk-Based Testing (RBT)

Languages: Core Java, SQL, HTML, CSS

EXPERIENCE

Yatra Online Limited

Senior Quality Analyst Engineer

Gurugram, India

June 2025 – Present

- Spearheaded end-to-end QA for high-traffic products, including an **AI Chatbot (Diya)** and **SEO Landing Pages**; led testing for a greenfield **Train Booking Platform**, validating PNR lifecycles and payment integrations.
- Architected **API Testing suites using Swagger**; performed validation of schemas and backend business logic (200, 400, 500 status codes) to ensure 100% system reliability and data integrity.
- Optimized Release Management via **Jenkins CI/CD** and managed production deployments via **Rundeck**; conducted real-time log monitoring and pod debugging using **kubectl** for high-availability services.
- Enhanced **SEO and Analytics Integrity** by validating GTM tags and metadata; implemented **Risk-Based Testing (RBT)** to significantly reduce production bug leakage by identifying edge-cases early.
- Actively collaborated with Frontend and Backend developers to resolve complex blockers, ensuring 100% UAT sign-off for monthly release cycles.

Vacancy.care (Australia)

Quality Analyst Engineer

Remote

Sep 2022 – May 2025

- Tested complex CRM-based applications (Admin, Main, and Provider CRMs), reporting over **100+ critical defects in JIRA** and contributing to a 30% improvement in overall application stability.
- Performed **Root Cause Analysis (RCA)** on recurring production issues, leading to process improvements that resulted in a **20% reduction** in repeat defects year-over-year.
- Utilized **Hotjar session recordings** to analyze user behavior, uncovering usability friction points and influencing UI enhancements that improved user engagement metrics by **15%**.
- Authored and maintained exhaustive Test Plans and Test Cases, ensuring full requirements traceability (RTM) for all major product features.

TECHNICAL SUMMARY

- **Strategic Testing:** 3.5 Years of experience in Manual and API Testing, with hands-on in Automation using Java & Selenium WebDriver.
- **Project Management:** Strong understanding of SDLC, STLC, and Agile methodologies; proficient in sprint planning and daily stand-ups.
- **Execution Excellence:** Skilled in writing and executing Functional, Regression, and System Test Cases for complex workflows.
- **Defect Management:** Expert in bug tracking with JIRA and creating professional test documentation (Test Plans, Summary Reports).
- **CI/CD Familiarity:** Hands-on experience with Selenium frameworks like TestNG and Maven, integrated into automated build pipelines.

EDUCATION

Kurukshetra University

Bachelor of Technology (B.Tech) in Computer Science

Haryana, India

Aug 2014 – June 2018
